

ACCOUNTING SERVICES

Tamir Fishman Equity Plan Services as a leading provider of equity plan administration believes in forming long-term relationship with our clients. The key value of Tamir Fishman is our extensive stock administration knowledge in practice, software development and education. The stock administration function is closely integrated with finance, accounting, tax, legal, customer service and human resources, yet often this complex relationship is not realized or understood. Tamir Fishman helps companies stay on track with their compensation goals, while navigating the regulatory and administrative requirements imposed by these programs.

Account your options with us:

It's easy to take full advantage of Tamir Fishman's comprehensive accounting solution. Use Tamir Fishman's proven process to extract, convert and reconcile data from your current administration system or spreadsheets. Then you can eliminate spreadsheets, improve accuracy, meet regulatory requirements and cut costs – all at the same time.
